It's your choice:

per month and user:

€ 49

per year and user:

€ 490

You save € 98 compared to monthly installments

each plus statutory tax

Additional data memory

The data you upload to the Celero Cloud is saved in our cloud servers. The total storage space available to you is calculated from the number of licences you hold. Every licence comes with 1 GB data memory. If you book additional licences, your data memory automatically increases respectively.

If, over the course of time, you should end up needing more memory after all, you may add additional data storage space via your account at any time. Comfortably available in 5 GB steps.

+ 5 GB DATA MEMORY

€ 9.90

per month

plus statutory tax

CALCULATION EXAMPLE

With 5 GB data volume you may, for example, save: **2500 SD images + 1000 HD images + 200 short videos** in the Celero Cloud.

(This calculation is based on our experience of average figures. Naturally, the actual amount depends on the volume of data you generate.)

Celero One Enterprise

As big player, you have very specific requirements regarding your employee management solutions and workforce management software? We look forward to working with you. Talk to us.
